Manuscript is written in English, font style “Times New Roman”.
 - a. **Title**, title should be large enough to be read from 3-5 meter. Keep the poster title to fewer than 12-15 words. Put important words first. Full names of authors and their affiliated institutions are listed directly below the title.
 - b. **Objective/introduction section**, give context for your work by stating what is already known about the topic. Then show how your question fits into that framework and seeks to expand or explain some aspects of it.
 - c. **Methods section**, keep the methods section minimal. Consider using a graphic of the steps or a bulleted lists.
 - d. **Results section**, organize the data. A table is much better than a list, but use a bulleted list if appropriate.
 - e. **Conclusion**, explicitly state what you have found in your research. Note its significance. Focus on the large picture.
